DETAILED ACTION

Acknowledgment

1. The pre amendment filed on 03/23/2004 has been entered. The present Office action is made with all the suggested amendments being fully considered. Accordingly, pending in this Office action are claims 1-12.

Allowed Claims

2. Claims 1-12 are allowed.

Reasons for Allowance

3. The following is a statement of reasons for the indication of allowable subject matter: The porous film composition as recited in claim 1 fail to be taught by the prior art cited of interest. Therefore, a semiconductor device and a method for forming a porous film that include all the limitations recited in claim 1 are considered novel since this limitations are not anticipated nor obvious over the prior art. For example, Zhong (US 6,197,913; see claim 1 & abstract) discloses a porous silicone resin that can be used in electronic devices but does not disclose a composition comprising each one of the compounds (i.e. 1-8) as recited in claim 1.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2826

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Zhong (US006313045B1 & US006359096B1), Albaugh et al. (US006596404B1), Kapoor (US US005494859A) and Inagaki teach porous film compositions analogous to the instant invention.
